SIS #

AIA #

588095 (MAYAABDOBO)	Electric Chip Scuttle, one-side operated with backsplash, 1/1 GN

Main Features

- All major components may be easily accessed from the front.
- THERMODUL connection system creates a seamless work top when units are connected to each other thus avoiding soil penetrating vital components and facilitating the removal of units in case of replacement or service.
- Metal knobs with embedded hygienic "soft-touch" grip for easier handling and cleaning. The special design of the controls prevents infiltration of liquids or soil into vital components.
- Easy-to-use control panel.
- The appliance is used to keep servings warm until ready to be served to customer.
- Unit supplied with a perforated GN 1/1 false bottom specially shaped for easier food collection.
- Unit to have infrared heating elements positioned on the back of the unit to increase holding time.
- Well able to contain 1/1 GN container with a maximum height of 150 mm.
- Typically used in combination with a fryer to allow fried portions to drip excess oil into the well basin.
- Large visible digital display manufactured in tempered glass to resist heat and chemicals, showing temperatures or power settings. The display also shows on/off status of the appliance and on/off status of the heating elements.

Construction

- 2 mm top in 1.4301 (AISI 304).
- Unit constructed according to DIN 18860_2 with 20 mm drop nose top and 70 mm recessed plinth.
- Flat surface construction with minimal hidden areas to easily clean all surfaces
- IPX5 water resistance certification.
- Internal frame for heavy duty sturdiness in 1.4301 (AISI 304).
