Water mixing tap Unit for automatic refilling, one-side operated

Short Form Specification

Item No.

Automatic water mixing tap for hot and cold water with electronic control of water quantity. Unit constructed according to DIN 18860_2 with 20 mm drop nose top and 70 mm recessed plinth. Internal frame for heavy duty sturdiness in stainless steel. 2 mm top in 1.4301 (AISI 304). Flat surface construction, easily cleanable. THERMODUL connection system enables seamless worktop when units are connected and avoids soil penetrating. IPX5 water resistant certification.

Configuration: Freestanding, one-side operated.

Main Features

- Water mixing unit for hot and cold water.
- All major components may be easily accessed from the front.
- THERMODUL connection system creates a seamless work top when units are connected to each other thus avoiding soil penetrating vital components and facilitating the removal of units in case of replacement or service.
- Large stainless steel tap.

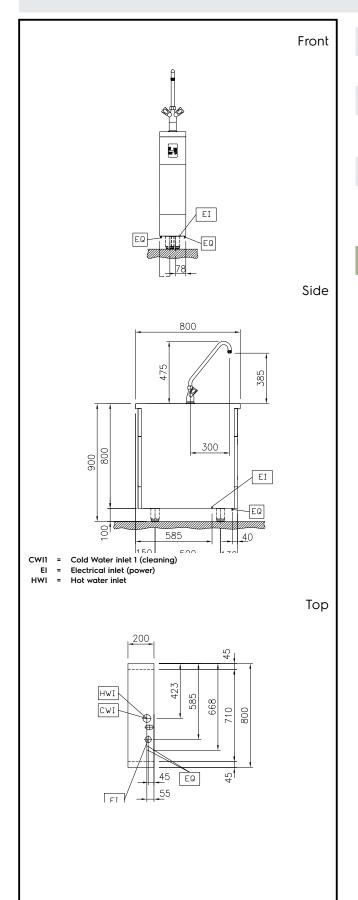

Construction

- 2 mm top in 1.4301 (AISI 304).
- IPX5 water resistance certification.
- Unit constructed according to DIN 18860_2 with 20 mm drop nose top and 70 mm recessed plinth.
- Flat surface construction with minimal hidden areas to easily clean all surfaces
- Internal frame for heavy duty sturdiness in stainless steel.

APPROVAL:

Modular Cooking Range Line thermaline 80 - Automatic water mixing tap, 1 Side - H=800
