## **Main Features**

- All major components may be easily accessed from the front.
- THERMODUL connection system creates a seamless work top when units are connected to each other thus avoiding soil penetrating vital components and facilitating the removal of units in case of replacement or service.
- Temperature in the cupboard can be set through a thermostat to suit different requirements. The maximum temperature is 110° C.
- Unit constructed according to DIN 18860\_2 with 70 mm recessed plinth.
- Unit can be installed below modular top appliances, designed to keep plates warm.

### Construction

- IPX5 water resistance certification.
- 2 mm top in 1.4301 (AISI 304).
- Flat surface construction with minimal hidden areas to easily clean all surfaces
- Storage space in the base of the appliance accepts GN1/1 containers.
- Internal frame for heavy duty sturdiness in stainless steel.

#### **Optional Accessories**
