Modular Cooking Range Line
thermaline 90 – Freestanding Electric Multi Braiser, 2/1GN, 1 Side, H=700

589272 (MCADEAHDAO) — Electric Multi Braiser, one-side operated, 2/1 GN

Configuration: Freestanding, One-side operated.

Short Form Specification

Item No.

Unit constructed according to DIN 18860_2 with 20 mm drop nose top and 70 mm recessed plinth. Internal frame for heavy duty sturdiness in stainless steel. 2 mm top in 1.4301 (AISI 304). Flat surface construction, easily cleanable. THERMODUL connection system enables seamless worktop when units are connected and avoids soil penetrating. Multi-purpose cooking appliance which can be used to shallow fry, cook liquids or as a bain marie. 18 mm-thick stainless steel plated bottom, seamlessly welded to the chrome nickel steel well. Powerblock heating system for optimal temperature distribution, which can be set up to 280°C. Interior pan dimensions allows the use of GN containers. Large drain hole allows to drain the cooking juices into a large collector. All-round basin raised edges to protect against soil infiltration. Overheat protection switches off the supply in case of overheating. Standby function saves energy and quickly recovers maximum power. Metal knobs with embedded hygienic silicon "soft" grip enable easier handling and cleaning.
IPX5 water resistant certification.

APPROVAL:

Main Features

- Choice of one or two heating zones. An indicator lamp shows operating state of each zone.
- Large drain hole on cooking surface permits the draining of residual cooking juices into a large collector placed under the cooking surface.
- Multi purpose cooking appliance that can be used to shallow fry, cook liquids or even as a bain marie. Unit can be used for sautéing, poaching, steaming, simmering, stewing, braising, boiling and preparing white sauces.
- Overheat protection: the temperature sensor switches off the supply in case of overheating.
- All major components may be easily accessed from the front.
- THERMODUL connection system creates a seamless work top when units are connected to each other thus avoiding soil penetrating vital components and facilitating the removal of units in case of replacement or service.
- Metal knobs with embedded hygienic "soft-touch" grip for easier handling and cleaning. The special design of the controls prevents infiltration of liquids or soil into vital components.
- Powerblock heating system for optimal temperature distribution.
- Handles are ergonomically designed with silicon "soft" grip for easy handling and cleaning.
- Raised edge all around the well to protect from infiltration of dirt from worktop.
- Temperature can be set up to a maximum of 280 °C.
- Interior dimensions of the well enables the use of GN containers.
- Large visible digital display manufactured in tempered glass to resist heat and chemicals, showing temperatures or power settings. The display also shows on/off status of the appliance and on/off status of the heating elements.

Construction

- An 18 mm thick stainless steel plated bottom is seamlessly welded into the chrome nickel steel well.
- Rounded corners and edges aid cleaning.
- Storage space in the base of the appliance that can accept GN1/1 containers.
- 2 mm top in 1.4301 (AISI 304).
- IPX5 water resistance certification.
- Unit constructed according to DIN 18860_2 with 20 mm drop nose top and 70 mm recessed plinth.
- Flat surface construction with minimal hidden areas to easily clean all surfaces
- Internal frame for heavy duty sturdiness in stainless steel.

Sustainability

- Standby function for energy saving and fast recovery of maximum power.
