Electric Warming Cabinet, with 2 doors, one-side operated, GN - H2

Short Form Specification

Item No.

1000 mm wide warming cabinet with 2 doors. Internal frame for heavy duty sturdiness in stainless steel. Flat surface construction, easily cleanable. Temperature in the cabinet can be set through thermostat, up to a maximum of 110 °C. Cabinet storage space accepts GN 1/1 containers.

IPX5 water resistant certification.

Configuration: One-side operated freestanding base, hygienic class H2.

Main Features

- All major components may be easily accessed from the front.
- THERMODUL connection system creates a seamless work top when units are connected to each other thus avoiding soil penetrating vital components and facilitating the removal of units in case of replacement or service.
- Unit constructed according to DIN 18860_2 with 70 mm recessed plinth.
- Temperature in the cupboard can be set through a thermostat to suit different requirements. The maximum temperature is 110°C.
- Unit can be installed below modular top appliances, designed to keep plates warm.

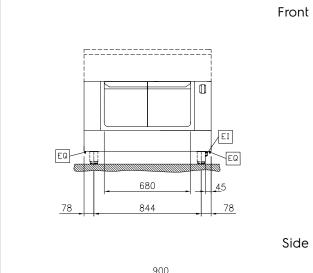

Construction

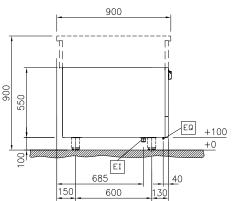

- IPX5 water resistance certification.
- 2 mm top in 1.4301 (AISI 304).
- Flat surface construction with minimal hidden areas to easily clean all surfaces
- Storage space in the base of the appliance accepts GN1/1 containers.
- Internal frame for heavy duty sturdiness in stainless steel.

APPROVAL:

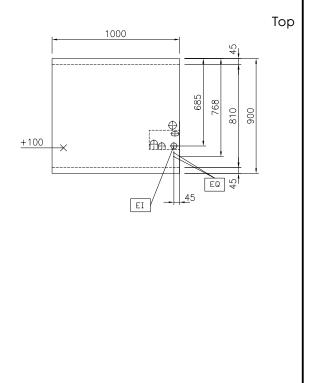

Electrical inlet (power)
