**602510 (MIRA2TSA)**

Traditional espresso machine, 2 groups, tall cup configuration, 10,1 liter boiler, 2 independent control boxes with 4 programmable dosing program

### Short Form Specification

Item No. \_\_\_\_\_

The MIRA line takes on the challenge of offering a dynamic outline with a sleek and streamlined design combining Stainless steel, Plexiglass and chromed components, and a full operational potential in the semi-automatic professional machine category. With this tall cup configuration, the barista can easily prepare large size drinks according to the larger cup clearance available. MIRA's technical features enable it to warrant consistently outstanding coffee quality throughout the day, while maintaining its reputation of quality and reliability that has resulting from a long-standing experience. Among its features, independent control boxes to control the volumetric commands, manual Steamglide lever to control the steam level horizontally and precisely via a ceramic cartridge, hot water dispenser with 2 programmable time-delay keys, steam dispenser with 1 programmable time-delay key
