GT PUSH 1 STD 230/50 WHITE - GAS R290

General Features

GT PUSH is a compact, multi-purpose unit, that dispenses soft serve, cold creams, sherbets, frozen yogurt and granitas.

Elegant design and compact dimensions combined with the excellent price-quality ratio make GT PUSH an ideal tool for all Ho.Re.Ca operators.

The GT PUSH 1 is equipped with with n. 1 I-Tank insulated bowl with a capacity of 5 litres, which reduces the impact of the external temperature on the product, improving the cooling efficiency of the equipment, and saving energy and money.

The intuitive front keyboard allows you to adjust the temperature, and the PUSH button increases the motor speed for a quicker dispensing of the product.

GT PUSH works with water- or milk-based powder products or with ready-to-use mixes to pour directly into the bowl, and guarantees high overrun which means a high return on investment.

GT PUSH comes in black or white plastics with stainless steel finish.
