Main Features

- In addition to cooking pasta, the appliance can be used for noodles of every kind, rice, dumplings and vegetables.
- High efficiency 10.5 kW burners in stainless steel with flame failure device and optimized combustion, located below the well.
- No electrical connection needed.
- Water basin in 316 type Stainless steel.
- Provided with integrated drip zone on which baskets can be placed for draining purposes.
- 24.5 litres water basin.
- Unit to feature skimming zone for starch removal: improved water quality over time.
- Easy-to-use control panel with gas cock and piezo ignition.
- Safety thermostat to avoid operation without water.
- Continuous water filling regulated through a manual water tap.
- Large drain with manual ball-valve for fast emptying of well.
- <p>Automatic lifting system</p>(optional accessory): 200mm wide unit with two stainless steel basket supports, holding one GN 1/2 basket each, to be placed on either or both sides of machine to provide automatic lifting for four small portion baskets (to</p>)
- All major compartments located in front of unit for ease of maintenance.
- Unit delivered with four 50 mm legs in stainless steel as standard (all round Stainless steel kick plates as option).

Construction

- All exterior panels in Stainless Steel with Scotch Brite finishing.
- One piece pressed 1.5 mm work top in Stainless steel.
- Model has right-angled side edges to allow flush fitting joints between units, eliminating gaps and possible dirt traps.
- IPx4 water protection.
- Water basin is seamlessly welded into the top of the appliance.

Sustainability

- **ESD** available as accessory (installed separately): energy saving device uses heat produced by water drained through the overflow to pre-heat tap-in water up to 60°C, for constant water boiling.
- **EnergyControl**: unique feature for fine power adjustment to control boiling level and optimize energy consumption.
