

Modular Cooking Range Line EVO700 Freestanding Electric Pasta Cooker, 2 Wells 24.5 litres

Short Form Specification

Item No.

Infrared heating system positioned below the well. Constant starch removal during the cooking process. Pressed tank in 316 AISI stainless steel to protect against corrosion. Manual water tap. Height adjustable feet in stainless steel. Exterior panels in stainless steel with Scotch Brite finish. One piece pressed work top in 1.5 mm thick stainless steel. Right-angled side edges to allow flush-fitting junction between units.

Main Features

- In addition to cooking pasta, the appliance can be used for noodles of every kind, rice, dumplings and vegetables.
- Unit to have infrared heating system positioned beneath the base of the wells.
- Water basins in 316 type Stainless steel.
- Water basins are seamlessly welded into the top of the appliance.
- Provided with integrated drip zone on which baskets can be placed for draining purposes.
- 24.5 liters water basins.
- Unit to feature skimming zone for starch removal: improved water quality over time.
- Easy-to-use control panel.
- Safety thermostat to avoid operation without water.
- Continuous water filling regulated through a manual water tap.
- Large drain with manual ball-valve for fast emptying of well.
- Automatic lifting system (optional accessory): 200mm wide unit with two stainless steel basket supports, holding one GN 1/2 basket each, to be placed on either or both sides of machine to provide automatic lifting for four small portion baskets (to be ordered separately). Possibility to memorize nine cooking times through digital control.
- All major compartments located in front of unit for ease of maintenance.
- Unit delivered with four 50 mm legs in stainless steel as standard (all round Stainless steel kick plates as option).

Construction

- All exterior panels in Stainless Steel with Scotch Brite finishing.
- One piece pressed 1.5 mm work top in Stainless steel.
- Model has right-angled side edges to allow flush fitting joints between units, eliminating gaps and possible dirt traps.
- IPx4 water protection.

Sustainability

• ESD available as accessory (installed separately): energy saving device uses heat produced by water drained through the overflow to pre-heat tap-in water up to 60°C, for constant water boiling.
